# LESSONS FOR THEM:

## Aries:

Think before jumping headfirst into the next decision or project.

No one else is going to steal it and it won't run away. Study patience.

## Taurus:

Try not to get too comfortable, you can become lazy and complacent, which leads to overeating and depression. Stay active and fun.

## Gemini:

Get messy once in a while, the world is not going to fall apart if you leave your clothes on the floor, try not to judge others' messiness too harshly.

## Cancer:

Try not to let other people bug you so much, you can get annoyed very easily at people's little habits and foibles, learn to laugh them off.

## Leo:

Try doing something nice for someone you love, not for a special occasion or for financial gain, just to show you care, go out of your way for them.

## Virgo:

Learn to relax, you do not always need to be doing something. Have just one day all to yourself. Lock yourself, don't talk to anyone, do something you like.

## Libra:

Watch your spending, you do work hard for your money, and you love to indulge yourself and your loved ones which can leave you out of pocket a lot.

## Scorpio:

Be mindful of your temper, you have a strong sting in your tail, some people are not as strong as you and you could hurt someone you really care about.

## Capricorn:

You take life too seriously, which can make you become sad moody when others don't see things your way. Try to laugh more and have more fun.

## Aquarius:

You are excellent at giving advice but find it very hard to take advice from others, try to listen to what people are saying, it could save a lot of heartaches.

## Pisces:

Don't be too trusting of people, you have a beautiful nature where you believe in people's goodness but there are bad people in the world you should avoid.

## Sagittarius:

You have a sharp wit and are a very truthful person, but watch what you're saying many of your truthful comments can hurt someone deeply.
